Kelly Doyle, CPESC is an Environmental Specialist in the Water Resources Division of Rick Engineering Company. Ms. Doyle has over seven years of storm water construction management and inspector experience, and holds a certification as a Certified Professional in Erosion and Sediment Control (CPESC) registration #4120. In addition, Ms. Doyle holds professional certifications as 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) and UXO Awareness Training; 24-hour Caltrans SWPPP training; South Coast Air Quality Management District for Fugitive Dust Control; and is a Certified Wetland Delineator.

Ms. Doyle has conducted construction site storm water inspections for residential, commercial, and public agencies. Specific technical experience includes preparing Storm Water Pollution Prevention Plans and Water Quality Management Plans, conducting on-site construction storm water inspections, conducting storm water compliance training workshops, providing coordination with federal, state, and local agencies, researching and maintaining current and accurate regulations as pertaining to storm water compliance, and providing extensive project coordination between clients, consultants, engineers, and regulators.

Ms. Doyle joined Rick Engineering Company in early 2005 from the environmental compliance department of the Hawaii Army National Guard as a Water Quality Administrator.
