Nida Saleem, CESSWI, is a Storm Water Inspector in the Environmental and Storm Water Compliance Division of Whitson Contracting and Management, Inc. Ms. Saleem has over four years of environmental construction, industrial storm water management, and storm water inspector experience both in the private and public sectors. Ms. Saleem is currently involved with over twelve storm water management projects throughout southern California. Specifically, preparing Industrial and Construction Storm Water Pollution Prevention Plans (SWPPP); storm water project management; water quality sampling and analysis; and conducting site inspections for the General Construction and Industrial permits.

Before joining Whitson CM, Ms. Saleem worked at the Santa Ana Regional Water Quality Control Board, Storm Water Unit. At the Regional Board, Ms. Saleem assisted with reviewing construction and industrial SWPPPs; inspections of facilities covered under the General Industrial and Construction permits to determine appropriate measures of source control and treatment control BMPs. Ms. Saleem also assisted in the development and organization of permittee-related data on the State Water Board's database, California Integrated Water Quality Systems (CIWQS).

Ms. Saleem graduated from the University of California, Riverside with a Bachelor degree in Environmental Science, minor Environmental Toxicology. Ms. Saleem is a Certified Erosion, Sediment and Storm Water Inspector.
