

Yuchen Huo

Senior Patent Agent

shuo@foley.com

Dallas

Dr. Yuchen (Sherry) Huo focuses on preparing and prosecuting patent applications in a variety of technical disciplines, most notably in the areas of electronics and biomaterials. For nearly a decade, she has assisted with a broad array of matters to meet various IP needs for clients ranging from leading international semiconductor device manufacturers to emerging startup technology companies and universities. She is experienced in handling patents related to semiconductor fabrication, biomaterials, and biomedical devices, among other technology areas.

Drawing on her strong technical background and language proficiency in Mandarin Chinese, Sherry frequently interfaces with domestic and foreign clients alike, providing them with high-quality services that are accessible to non-experts in the field.

Presentations and Publications

- Co-Author, "Applied Surface Science," 273, 472-477 (2013)
- Co-Author, "Tribology Letters," 45, 505-513 (2012)

Languages

- Mandarin Chinese

Practice Areas

- [Mechanical & Electromechanical Technologies](#)

Education

- University of Florida (Ph.D., 2013)
 - Materials Science and Engineering
- University of Florida (B.S., summa cum laude, 2009)
 - Materials Science and Engineering

Admissions

- U.S. Patent and Trademark Office
