John J. Klusaritz is a partner and business lawyer with Foley & Lardner LLP where he primarily represents clients in mergers and acquisitions, finance transactions, joint ventures and related complex commercial transactions. He is a member of the firm's Transactional & Securities Practice as well as the Energy Industry Team.

John's clients and the corporate transactions where he has provided representation are in a wide variety of industries including energy, telecommunications, infrastructure and media, technology (including cyber security and cyber intelligence), government contracting, aviation services and transportation infrastructure, REITS and construction.

With regard to the energy, telecommunication, technology, and government contracting industries, John has worked with clients in these industries for more than 25 years and has significant experience with the legal and business issues unique to these industries. John also has significant relationships with investment banks, private equity funds, family office investor groups, and other financial institutions that engage in financing and merger transactions in these industries.

In the energy industry, John has represented large electric utilities, private equity funds, financial institutions, renewable and conventional power project developers, transmission developers, and gas pipeline companies in a wide range of financings (including corporate level debt, project finance, back leverage finance, and tax equity financings-including partnership "flip," sale/leasebacks, and sales of tax credits under the IRA), mergers and acquisitions and development transactions. These include acquisitions, dispositions, joint ventures, finance transactions, and other complex commercial arrangements relating to conventional power generation, hydroelectric power, renewable energy (including solar, wind, biomass and fuel cell), renewable natural gas, transmission, midstream, local gas distribution, and gas pipelines.

John has represented companies operating in virtually every sector of the communications and related technology industries, including owners and operators of , fiber companies, cellular tower companies, unified communications providers, cloud services providers, other telecom service providers, technology developers and private equity funds and other investor groups.
