David Berezowsky is a business lawyer and an of counsel with Foley & Lardner LLP. David is based in the firm's Mexico City office where he is a member of the firm's Finance Practice. His areas of practice cover a broad range of business and financial matters including, renewable energy, project finance, infrastructure projects, government procurement projects, mergers and acquisitions, joint ventures, life sciences, and administrative litigation.

David's experience in renewable energy and project finance includes representing developers and investors in the construction, development, and financing of renewable energy generation facilities, including solar, wind, hydro, and biomass facilities. David has also assisted generators, suppliers and off-takers in the negotiation of power purchase agreements under both the grandfathered and new power market regulations. He also has experience in providing legal advice to clients with respect to governmental procurement and public works procedures, including bids for contracts for the acquisition of goods and services at federal and local levels.
