

Lauren N. Long

Patent Agent I

llong@foley.com

Chicago

312.832.4993

Lauren Long is a patent engineer in the Patent Agents/Specialists Department with Foley & Lardner LLP. Lauren is based in the Chicago office where she is a member of the firm's Intellectual Property Practice Group.

Prior to joining Foley, Lauren was a Registry Analyst for DePuy Synthes where she ran reports on hip and knee implants and components as a part of post market surveillance to better understand how the products are performing over time on a global scale. She also has experience at the University of Michigan working on engineering hydrogels and cardiac implants and devices
