

Sandy Ma

Senior Patent Agent

sma@foley.com

San Diego
858.847.6763

Sandy Ma is a patent agent with Foley & Lardner LLP. Her practice focuses on the preparation and prosecution of patent applications, patent landscape analysis, and due diligence matters in the areas of chemistry, pharmaceuticals, and biotechnology. She is a member of the firm's Chemical, Biotech & Pharmaceutical Practice.

Prior to joining Foley, Sandy was a patent agent at an *AmLaw* top 100 law firm in New York and San Diego.

Previously, she was a postdoctoral research associate at The Scripps Research Institute, where she developed new synthetic methodologies using palladium-catalyzed C-H activation.

Practice Areas

- [Chemical, Biotechnology & Pharmaceutical](#)

Education

- California Institute of Technology (Ph.D., 2011)
 - Asymmetric copper-catalyzed carbon-carbon bond forming reactions and the application of such technology towards the total synthesis of complex natural products.
- Stanford University (B.S., 2004)
 - Chemistry and Biological sciences

Admissions

- U.S. Patent and Trademark Office
