Liane M. Peterson is a first chair trial litigator with extensive experience handling patent litigation in U.S. District Courts and before the U.S. International Trade Commission. She is co-chair of the firm's IP Litigation Practice and a member of the Chemical, Biotechnology & Pharmaceutical Practice. Liane is also a member of the Life Sciences Industry Team as well as the Health Care & Life Sciences and Innovative Technology sectors.

Liane focuses her practice on complex patent litigation in the pharmaceutical and biotechnology fields, with a particular focus on Hatch-Waxman litigation. She has represented numerous pharmaceutical, biologics and life sciences companies in litigation at the district court and appellate levels across a wide range of matters involving small molecule drugs, biologics, cosmetics, vaccines, and diagnostics. Liane also routinely counsels clients including start-ups, and both large pharmaceutical companies and those engaged in early stage clinical research on a range of pre-litigation matters.

Liane also has significant experience handling Section 337 patent litigation for clients at the U.S. International Trade Commission as well as in handling patent litigation matters for clients in the medical device, electronics, semiconductor, financial services, flat glass, automotive, and communications industries.

Liane previously worked as a law clerk at the U.S. International Trade Commission in the Office of Unfair Import Investigations dealing with Section 337 investigations of unfair trade practices involving intellectual property rights. Prior to law school she served as a researcher at The Institute for Genomic Research in Rockville, Md.
