

Arthur Siebel

Senior Patent Agent

asiebel@foley.com

Milwaukee

414.297.5302

Arthur Siebel prepares robust utility and design patent applications for worldwide prosecution, advocates for patentability during interviews with U.S. Patent and Trademark Office Examiners, and presents arguments to bring U.S. and foreign patent applications to allowance. He frequently handles patent counseling matters that assist clients in making educated IP-focused decisions, such as patent searching, patentability analysis, large-scale freedom-to-operate projects, and patent portfolio analysis and management.

Arthur assists clients across a broad variety of technology areas, with a particular focus on vehicle systems, including electrified, hybrid, and internal combustion powertrains and vehicle automation. He also has experience with farming and mining equipment, fire suppression systems, printers, kitchen equipment, point-of-sale systems, bathroom fixtures, medical devices, consumer products, and robotics.
