Victoria Smith brings extensive real-world project management experience and a collaborative spirit to her role helping innovators navigate the complexities of bringing new technologies to market while safeguarding and leveraging their intellectual property.

While pursuing her degree in electrical engineering, Victoria completed two significant internships with a U.S. petroleum refining company. During these internships she managed installation projects involving pressure, valve, and temperature instrumentation. She also gained experience in key areas, including the Management of Change (MOC) hazard review process and safety instrumented systems (SIS).

Languages

- Spanish (fluent)

Practice Areas

- [Electronics](#)

Education

- Ohio State University (B.S., summa cum laude, 2024)
