Boston

617.226.3135

Jennie Zheng is an associate with Foley & Lardner LLP. Jennie is a member of the Mechanical & Electromechanical Technologies Practice. She has experience preparing and prosecuting patent applications spanning a wide array of technology areas including materials science, solid-state physics, electric vehicles, batteries, fuel cells, superconductivity, glass compositions, alloys, optics, medical devices, magnetic resonance imaging, vehicle aftertreatment systems, additive manufacturing, gas chromatography, seismic data detection and analysis, remotely operated underwater vehicles, and robotics.

Jennie is a member of the Mechanical and Electromechanical Technology practice group. She began at Foley as a patent engineer and patent agent.

Presentations and Publications

- Co-Author, T. J. Kucharski, N. Ferralis, A. M. Kolpak, J. O. Zheng, D. G. Nocera, and J. C. Grossman, "Templated assembly of photoswitches significantly increases the energy-storage capacity of solar thermal fuels," Nat. Chem. 6, 441-447 (2014). doi:10.1038/nchem.1918

Practice Areas

- [Intellectual Property](#)
- [Mechanical & Electromechanical Technologies](#)

Education

- **Northwestern University Pritzker School of Law (J.D., 2023)**
- Stanford University (M.S., 2018)
 - Materials Science & Engineering
- Massachusetts Institute of Technology (B.S., 2015)
 - Materials Science & Engineering

Admissions

- Massachusetts
